

UNIQUE & EXCITING Sponsorship Opportunities

Not your average conference sponsorship experience.

Who attends LocoMocoSec?

Those who drive change. Including everyone from C-levels to the hungry entry-level engineers. This event draws in a focused, high-end audience actively seeking information on how to make meaningful security changes in a modern development environment. Industry practitioners that attend this event are looking for advice and solutions they can immediately put into place when they return to work.

Community Focused

LocoMocoSec has a strong commitment to creating an inclusive experience for attendees. Since the beginning, we have sponsored attendees from diverse backgrounds, provided on-site childcare, and have hosted family-friendly social events where alcohol is not the focus.

Conference Format

LocoMocoSec is a single-track conference. We expect to have over 200 attendees in our fourth year. Most of our attendees are security engineers, software engineers, or people that help run security programs ranging from managers to CISOs.

Venue

LocoMocoSec 2022 is on the Hawaiian island of O'ahu at the Waikiki Beach Marriott.
